19.USING RAPTOR –DISPLAY THE LENGTH OF THE STRING

T. INDU PRIYA
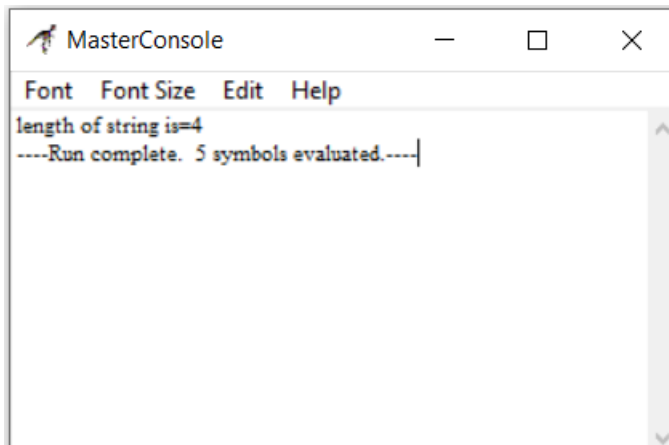

(192110486)

FLOWCHART:
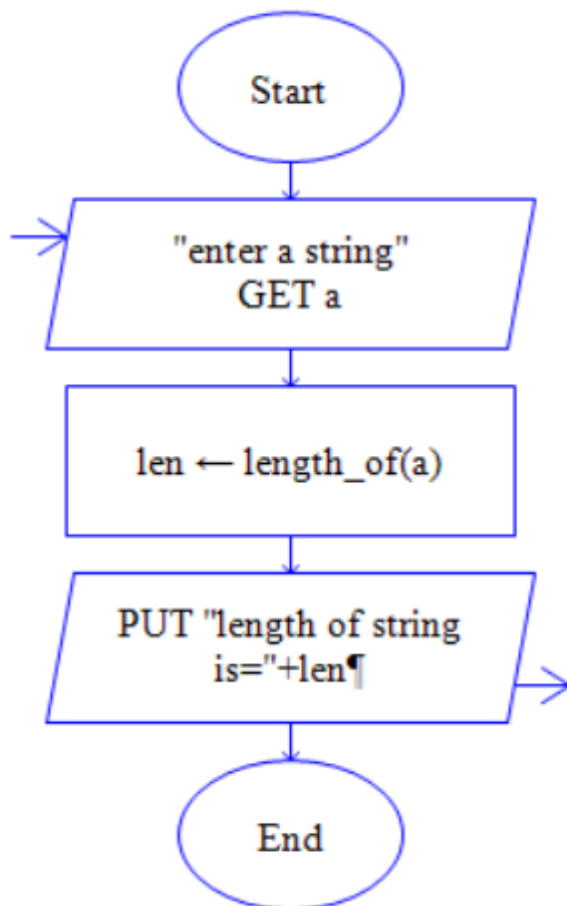

```
            ┌─────────┐
            │  Start  │
            └─────────┘
                 │
          ┌──────▼───────┐
     ──▶ /  "enter a string"  /
        /     GET a      /
       └───────┬───────┘
               │
        ┌──────▼────────────┐
        │ len ← length_of(a) │
        └──────┬────────────┘
               │
      ┌────────▼──────────┐
     / PUT "length of string  /  ──▶
    /     is="+len¶     /
    └────────┬──────────┘
             │
        ┌────▼────┐
        │   End   │
        └─────────┘
```

OUTPUT:

INPUT: INDU

```
MasterConsole                —    □    ×
Font   Font Size   Edit   Help
length of string is=4
----Run complete.  5 symbols evaluated.----
```

RESULT:

The program is executed and verified successfully.
